

RoHS2 DECLARATION

Subject:

Declaration regarding the RoHS2 (Restrictions on Application of Hazardous Substances in Electric and Electronic Equipment – 2011/65/EU and EU 2015/863)

Elmo products comply with the directive 2011/65/EU and EU 2015/863 (RoHS2).

The RoHS2 Directive targets the Reduction of Hazardous Substances, or the restriction of the use of certain hazardous substances in electrical and electronic equipment. This Directive prohibits the usage in the European Union market of electrical and electronic equipment containing more than allowed (agreed) levels of certain materials.

According to the directive defined above, Elmo's products comply with Category 9: *Monitoring and Control Instruments*.

Elmo's products comply with the directive by maintaining the restrictions of usage of the following materials as requested by the 2011/65/EU and EU 2015/863 (RoHS2):

- **Lead (Pb):** < 1000 ppm
- **Mercury (Hg):** < 100 ppm
- **Cadmium (Cd):** < 100 ppm
- **Hexavalent Chromium: (Cr VI)** < 1000 ppm
- **Polybrominated Biphenyls (PBB):** < 1000 ppm
- **Polybrominated Diphenyl Ethers (PBDE):** < 1000 ppm
- **Bis(2-Ethylhexyl) phthalate (DEHP):** < 1000 ppm
- **Benzyl butyl phthalate (BBP):** < 1000 ppm
- **Dibutyl phthalate (DBP):** < 1000 ppm
- **Diisobutyl phthalate (DIBP):** < 1000 ppm

In general, the RoHS2 aims to protect human health and the environment. The RoHS2 directive does not call for a total elimination of the listed substances, but mandates that the materials within compliant products contain levels of the 10 restricted substances, below the maximum concentration levels, as shown above.
